

# DUBLIN DRIBBLES

FROM MICK KINAHAN

In late October Dublin I.W.A.I. worked with Volunteer Ireland, the Foundation for International Education and the Northeastern University in Ireland on a clean-

up project on the royal canal under the banner 'Royal Canal Clean-up Team'.

A large group of volunteers used wheelbarrows and shovels to

remove silt and debris from the bed of the canal in the Binn's Bridge area of Drumcondra.

The photos show some of the activities on the day.
